General instructions

=====

The installer will provide you the ready files. Few complementary advices to be given...

Read Bernard's documentation "ALIRE[.dvi,.ps]" and just do the formats you need.

Copy the "bin" files where you want.

Copy the "formats" files where the old ones are.

Copy all other \_french\_ files to the appropriate \texmf location(s).

Please, let know a more complete installation procedure, send a full installation report to Bernard.
