Contents of volume 2

Large Information Systems

Alimov D. V.
The realization technology of multicomponent support for mechanism in medical information systems of complex patient care institutions 3

Alimov D. V., Guliev Ya. I., Komarov S. I.
Medical information system of Clinical Hospital, Federal State Organization 13

Alimov D. V., Guliev Ya. I., Komarov S. I., Lebedev A. V., Pfaf V. F.
Management information system of Central Clinical Hospital No 1 of Open Joint Stock Company Russian Railways 27

Bazarkin A. N.
Research and developing temporal data model in MIS Interin PROMIS subsystem 37

Bazarkin A. N., Kchatkevich Yu. I.
Economy of medical treatment in MIS Interin PROMIS 55

Belyshev D. V., Guliev Ya. I.
Usage of Barcodes Technology in Hospital Information Systems 71

Kulikov D. E., Belyshev D. V.
The facilities of data extraction, analysis and visualization in the medical informational system Interin 97

Belyshev D. V., Kazakov I. F., Magsumov D. R.
Interin DOC — a desktop healthcare information system 107

Khatkevich M. I. Guliev Ya. I., Gorbunov P. A., Miheev A. E., Nazarenko G. I.
Medical institutions network of Bank of Russia automation 121

Gulieva I. F., Ryumina E. V.
Costs and profits: the analysis of the ratio for medical information systems 133

Guliev Ya. I.
Programs Systems Institute of Russian Academy of Science researches and developments in medical information technologies area 145

Guliev A. Y.
Future trends of laboratory information management systems and laboratory instruments integration mechanisms 165

Guliev Ya. I., Vogt I. A., Vogt O. A., Belyakin A. Ju.
Healthcare Information System and Information Safety. Problems and solutions 175

Tolchenov A. A., Zubov D. V., Sergeeva A. V.
Effective method for measuring of cellulolytic activity 207

Kazakov I. F., Magsumov D. R.
Experience of construction of regional medical information system of additional medicinal maintenance 217

Kozadoy Yu. V.
Integration solutions generalization for the healthcare information system Interin PROMIS 227

Kulikov D. E.
The facilities, methods and manners for data visualization in the medical information system Interin 241

Pogosov A. O.
The analysis of integrated platforms and architectures for medical common information zone organization 259

Magsumov D. R.
Application of portal technologies for development of regional medical information systems 277
